

# ERP PROJECT IMPLEMENTATION

101ERP.COM

Your Role – Know it !

# What may be your role in this project ?

- ❑ You will directly report to your assigned HR Manager and assigned SAP Project Lead.
- ❑ You will carryout all tasks assigned by your SAP Project Lead(s)
- ❑ Your are always welcome to share your opinion and Ideas in the meetings and emails.
- ❑ You may be involved in SAP Solution Confirmation workshop sessions where you can gain the knowledge of various business processes and understand industry practices in your respective modules.

**Important: You will be a part of full life cycle implementation.  
THIS IS HOW THE SAP IMPLEMENTATION IS DONE – “ASAP”**

# What may be your role in this project ?

- ❑ You may be involved in Designing the SAP solutions after the SAP solution confirmation.
- ❑ You may be involved in analyzing the gaps and identifying work around solutions to ensure all SAP solutions are delivered to the business.
- ❑ You may be involved in writing SAP technical, SAP functional and SAP configuration specifications to meet the designed solutions.
- ❑ You may be involved in Configuration of the SAP system to meet the designed solutions as per sap configuration documents.

**Important: Know the ASAP methodology**

# What may be your role in this project ?

- ❑ You may be involved in writing SAP test scripts to test all designed solutions.
- ❑ You may be involved in doing various types of testing to test SAP process.
- ❑ You may be involved in resolving the defects related to designed SAP solutions.
- ❑ You may be involved in preparing the cut over activities for SAP production move.
- ❑ You may be involved in data load process for SAP data.

**Important: Learn other various tools too....Of course SAP is the main thing here...**

# What may be your role in this project ?

- ❑ You may get an opportunity to work in SAP DEVELOPMENT & SAP QUALITY environments.
- ❑ You will learn for sure – that's one of the main purposes of this implementation.
- ❑ You will learn to be a team player doing SAP projects
- ❑ Your normal SAP training will not teach you how a SAP implementation is done – Only this program does
- ❑ You have a very good chance of clearing interviews if you are a part of this program.

**Important: Training is just a start, you must know SAP implementation details to have a successful start on a project or to clear interviews quickly.**
