Comprehensive IT Staffing Solutions

ANALYZING THE REQUIREMENTS IN DETAIL WITH OUR MULTI LAYER ARCHITECTURE

Our Accounts Managers analyzes the requirements by clearly identifying your needs in the right technological area, duration, location and any other specifics. After careful analysis the requirements are passed to our recruiting manager and who in turn does a second analysis & pass it on to his team members. In this way we carefully analyze the requirements using our multi layer architecture before we start the sourcing of the consultants.

CONDUCTING TECHNICAL INTERVIEW USING OUR EXPERT TEAM OF ANALYSTS

Once the IT consultants are sourced they are screened technically by our expert technical interview team who examines the consultants to check and make sure that they meet your and our expectations technically. This is a regular formal interview process just like the way as a client you would do. By having this concept in place, we greatly reduce the amount you spend to interview the consultants.

FLEXIBLE PAYMENT/INVOICING TERMS

In order to maintain a long term business relationship between us we always work with terms and conditions that is best suited for your business needs.

TIMELY UPDATES

To meet the challenging demands of the market needs and fluctuations, it is very important to keep ourselves with the needed updates. Our robust database along with the efficiency of our recruiting management team we are able to keep track of the necessary updates in time and provide them to you as and when you require.

INFORMATION VERIFICATION

Before we present any consultant to you we will make sure they have the needed work authorization and every reference they provided are accurate .

COMPETITIVE RATES

We know it is important to supply the consultants within the rate that you are looking, the rate and the right talent are inter dependant on each other, hence we always keep that in mind and supply you the right consultant without deviating from the rate, quality and our promises.

- Communication skill screening on the Phone
- Technical Phone interview
- Complete Reference verification
- Work authorization verification
